

Proferred®

PHR-2, PHILLIPS HEAD REDUCED DRIVE BIT

The PHR-2 drive bits are used with Proferred® drywall screws and have a slightly smaller wing span than a standard PH2 drive bit, allowing the PHR-2 drive bit to fully seat into the drive recess of the Proferred® screws.

PH-2 STANDARD DRIVE BIT

The PH-2 drive bits have a slightly larger wing span and are utilized with select Proferred® self-drill screws that have a standard drive recess, allowing the drive bit to fully engage into the drive recess of the screw.

BUGLE HEAD PHILLIPS COARSE THREAD DRYWALL/WOOD SCREW, BLACK PHOSPHATE

- For Installing Drywall to Wood Studs

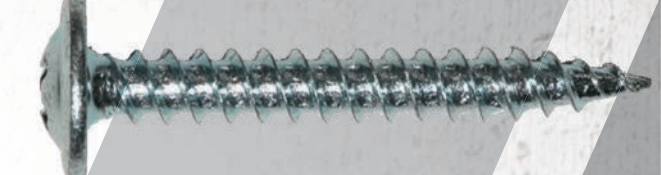

BUGLE HEAD PHILLIPS COARSE THREAD DRYWALL/WOOD SCREW ZINC YELLOW

- For Installing Drywall to Wood Studs

BUGLE HEAD PHILLIPS FINE THREAD/ SHARP POINT SCREW, BLACK PHOSPHATE

- For Installing Drywall to Light Gauge Steel Studs

MODIFIED TRUSS HEAD PHILLIPS SHARP POINT SCREW ZINC PLATED CR+3

- For Installing Metal Lath to Wood or Light Gauge Steel Studs

BUGLE HEAD PHILLIPS HI-LOW THREAD SCREW, BLACK PHOSPHATE

- For Installing Drywall to Light Gauge Steel Studs

TRIM HEAD SQUARE DRIVE SHARP POINT SCREW, BLACK PHOSPHATE FOR INSTALLING WOOD TRIM AND BASE BOARD

- Over Drywall to Wood Studs

BUGLE HEAD PHILLIPS LAMINATING SCREW, BLACK PHOSPHATE

- For Attaching Drywall to Existing Drywall

PAN FRAMING PHILLIPS SHARP POINT SCREW, BLACK PHOSPHATE

- For Attaching Steel Track to Steel Studs

PAN FRAMING PHILLIPS SELF-DRILL SCREW, ZINC PLATED CR+3

- For Installing Steel Track to Steel Studs

BUGLE HEAD PHILLIPS SELF-DRILL SCREW, BLACK PHOSPHATE

- For Attaching Drywall to Steel Studs

BUGLE HEAD PHILLIPS SELF-DRILL SCREW, ZINC PLATED CR+3

- For Attaching Drywall to Steel Studs

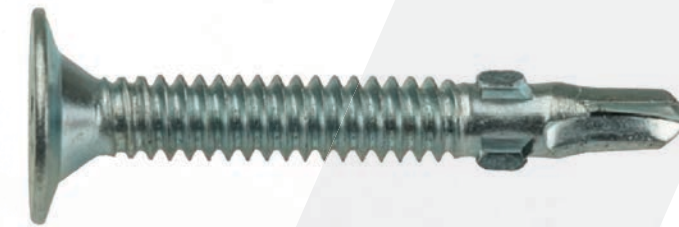

MODIFIED TRUSS HEAD SELF-DRILL SCREW, ZINC PLATED CR+3

- For Attaching Metal Lath in Stucco to Steel Studs

WAFER HEAD PHILLIPS SELF-DRILL SCREW, ZINC PLATED CR+3

- For Attaching 1/4" to 7/16" Plywood to Steel Studs

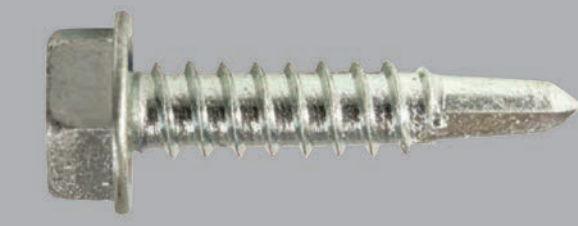

WAFER HEAD PHILLIPS SELF-DRILL W/WINGS, ZINC PLATED CR+3

- For Attaching 1/2" to 3/4" Plywood to Steel Studs

TRIM HEAD SQUARE DRIVE SELF-DRILL SCREW, ZINC PLATED CR+3

- For Attaching Trim & Base Board over Drywall

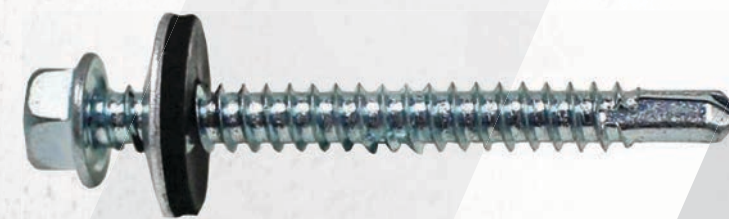

NON-SLOTTED INDENT HEX WASHER HEAD SELF-DRILL SCREW, ZINC PLATED CR+3

- For Metal-to-Metal Fastening

PAN PHILLIPS SELF-DRILL SCREW, ZINC PLATED CR+3

- Metal-to-Metal Fastening Where a Lower Profile Head is Required

NON-SLOTTED HEX WASHER HEAD W/NEO WASHER SELF-DRILL SCREW, ZINC PLATED CR+3

- For Attaching Metal Roofing & Wall Panels to Steel Studs

PHILLIPS COMBO DRIVE CEMENT/FIBER BOARD SCREW WITH NIBS 1,500 HR. SALT SPRAY

- For Attaching Cement/Fiber Board to Woods Studs

PHILLIPS COMBO DRIVE CEMENT/FIBER BOARD SELF-DRILL SCREW 1,500 HR. SALT SPRAY

- For Attaching Cement/Fiber Board to Metal Studs
